A beautiful lawn.
And everything you need to maintain it.

The type of lawnmower you require depends on the size of your lawn and what you use it for. We've got all the tools to help you keep your lawn in tip-top condition.

If your lawn is a space for playtime and leisure, you'll want to spend as little time as possible keeping it in shape. The **Rotak rotary mowers** from Bosch come with a 'Powerdrive motor' which effortlessly cuts through all kinds of grass, even when it's long. The hardened precision blade enables efficient cutting of grass and the grass combs mow up to and over the edge. The range of Rotak mowers also benefits from the 'Ergoflex System', offering ergonomically designed and adjustable handles to improve body posture and reduce muscle strain whilst mowing.

If you find extension cords or petrol a hassle, our **Rotak cordless mowers** could be just the thing for you. They give you power, freedom and energy efficiency – plus all the benefits of our Bosch lithium-ion technology. All Bosch Rotak mowers also have a roller which creates a stylish striped effect after mowing.

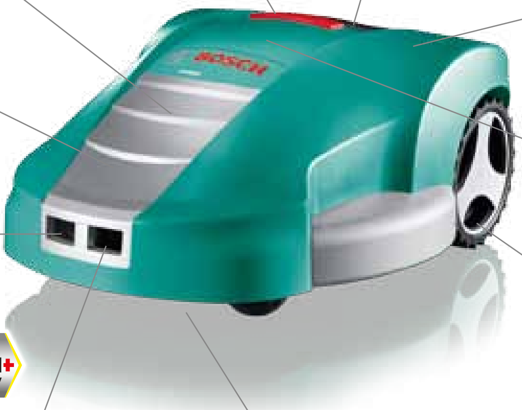
If you prefer not to mow the lawn yourself at all, you can now choose the innovative **robotic lawnmower** Indego from Bosch. Thanks to its 'Logicut' system, the Indego calculates an efficient route and mows it in clean, parallel lines. While the Indego is working, you can attend to other projects.

We've also got tools to help you keep your lawn healthy and lush. A **lawnraker** will efficiently and gently remove moss in its earliest stages of growth, without damaging grass. If moss has already taken hold, a verticutter will help you remove the growth and prepare the lawn for reseeding.

You'll find a handy overview of all Bosch lawn care products on pages 14–15.

Indego robotic lawnmower.
Mows all by itself, so you can enjoy other projects.

Just leave it to the Indego from Bosch. It mows your lawn, finds its way all by itself and always delivers the perfect cut. How does it achieve this? It's simple – with Logicut. With this technology, the lawn is mapped, an efficient mowing strategy is calculated and the Indego mows the lawn in clean, parallel lines. Following installation, some simple programming is all that is needed to get it ready to do the work for you. Thanks to its efficiency the Indego uses very little power. It doesn't emit any exhaust fumes making it a good choice for you and the environment. And if it finds a branch in its way – that's not a problem either. The Indego will recognise that it has bumped into an object, reverse and then drive around it. It's actually so autonomous that it knows when to charge its lithium-ion battery pack at the docking station. It also cares for your lawn as the short grass clippings act as a mulch. It can be used in most weather conditions, handles up to 35% slopes, boasts all-round safety features and is protected from theft by a PIN and alarm system. Let the Indego take care of the lawn so that you can take care of other projects.



Manual stop button
For maximum safety

Human Machine Interface
Allows intuitive programming and easy operation

Yaw rate sensors
Tracks the Indego's movement and position within the garden map

Minimal electricity consumption
Lower running costs, noise and air pollution than standard lawnmowers

Multi sensors
Detects obstacles then manoeuvres around them back on to its path

Height of cut dial
Allows for quick and easy adjustment

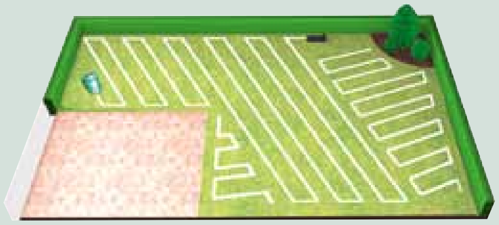
Intelligent auto charging
Keep your battery healthier for longer

Design engineered wheels
Kind to the grass

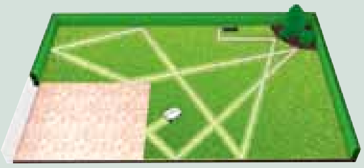
Cordless power
32.4 V/3.0 Ah lithium-ion battery

Mulching
Cut grass is distributed evenly for a healthier lawn

Logicut!



WITH LOGICUT

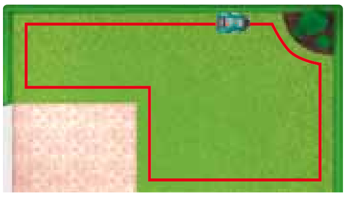


WITHOUT LOGICUT

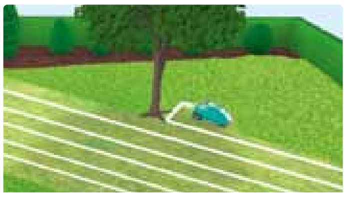
Efficient, accurate mowing, line by line
Mowing systematically means mowing more efficiently. The Indego uses its 'Logicut' technology to calculate a short mowing path and mows in orderly parellel lines. The Indego moves easily around the lawn line by line, ensuring that no patch of grass is overlooked or repeatedly mowed. This is kind on your lawn, saves time and power and allows you to enjoy your garden in peace. Simply logical – simply efficient

Mowing without 'Logicut'
A random approach is taken when mowing without 'Logicut'. In other words, mowing continues until all of the lawn has been evenly mowed. It takes longer as it is cutting the same patches several times.

Indego robotic lawnmower
Find out more about the Indego and connected services, scan the QR code and learn more. For instructions on how to use QR codes turn to page 2.



GARDEN MAPPING

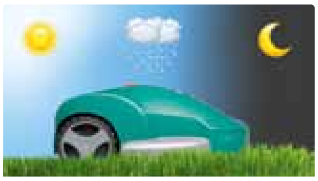


INTELLIGENT

Clever at every level

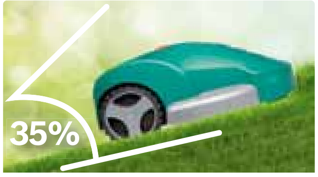
Intelligent and efficient! With its 'Logicut' navigation system, the Indego autonomously measures the garden and automatically calculates an efficient mowing path. Line by line, parallel and quickly.

Practical at every level!
Three application examples:



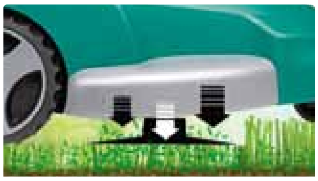
WORKING IN MOST WEATHER CONDITIONS

1. Rain or shine, the Indego mows.



SLOPE MOWING CAPACITY

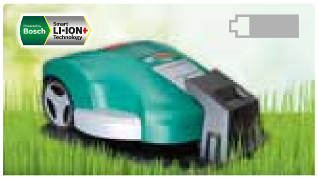
2. Even on lawns with up to a 35% slope.



MULCHING FUNCTION

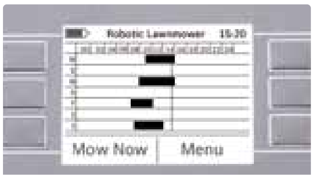
3. Cares for your lawn through mulching.

Convenient at every level!
Simply start! The Indego is ready to go in just three simple steps:



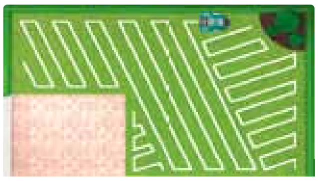
AUTOMATIC CHARGING SYSTEM

1. Position charger and lay perimeter wire.



EASY SETUP

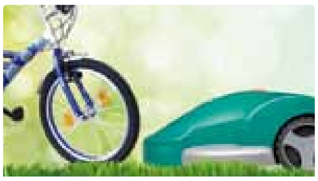
2. Set the mowing times and days of the week.



LOGICUT

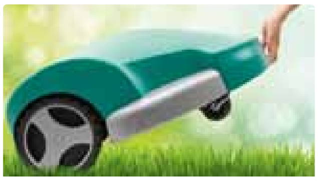
3. Press the start button – and off it goes!

Safe at every level!
Three examples of its safety features:



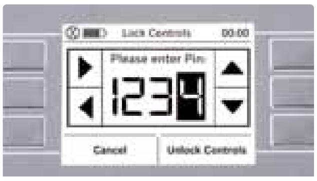
OBSTACLE DETECTION BUMP SENSOR

1. The Indego uses a bump sensor to detect obstacles on the lawn to avoid them.



QUICK BLADE STOP

2. When lifted, its mowing blades stop immediately.



PIN PROTECTION AND ALARM SYSTEM

3. The Indego is protected from theft by a PIN code and alarm system.

POWER Bosch Lithium-Ion 36 V

Rotak 43 LI Ergoflex cordless lawnmower.
Effortless handling, cordless freedom.

Part of a range of cordless mowers with various cutting widths, the Rotak 43 LI Ergoflex is a fantastic choice for larger gardens. It has a 43 cm cutting blade and two of our innovative lithium-ion technology batteries. Just as powerful as traditional electric and petrol mowers, the Rotak 43 LI Ergoflex has no trailing cable, is always ready to use and is much quieter. It's 40% lighter than traditional mowers too. So no matter what your height or build, you'll keep complete control and maintain perfect posture.
Also available with 37 and 34 cm cutting widths.

Lightweight
For easy manoeuvring

Powered by Bosch Smart LI-ION+ Technology

Cordless power
36 V/2.6 Ah battery for long runtime. No memory-effect, no self-discharge, always ready to use

More power
'Efficient Energy Management' increases run time by up to 15%

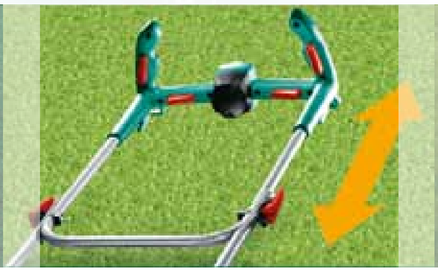
'Ergoflex System'
Ergonomically designed and adjustable handles to improve body posture and reduce muscle strain while mowing

Foldable handles
For compact storage

Central height-of-cut adjustment
For quick and easy change of cutting height

Extended grass combs
Cut close to the edge of walls, flower beds and lawns

Precision edging
While unique grass combs mow your lawn perfectly right up to the edge, the lithium-ion battery powered motor cuts even long and damp grass.



Effortless operation
The new 'Ergoflex System' enables easier steering and a better body posture.

Cordless freedom
Light weight for optimum handling. No tangled cables that you could get caught up in, and no foul-smelling petrol fumes.

Bosch Lithium-Ion 36 V

Rotak 32 LI Ergoflex cordless lawnmower.

A compact mower for a city landscape.

The Rotak 32 LI Ergoflex: no annoying cable, no noise, no exhaust fumes. Instead it has a great deal of power for lawned areas of up to 300 m² – thanks to the latest Bosch lithium-ion technology. **Our full range of cordless mowers can be found on pages 14–15.**

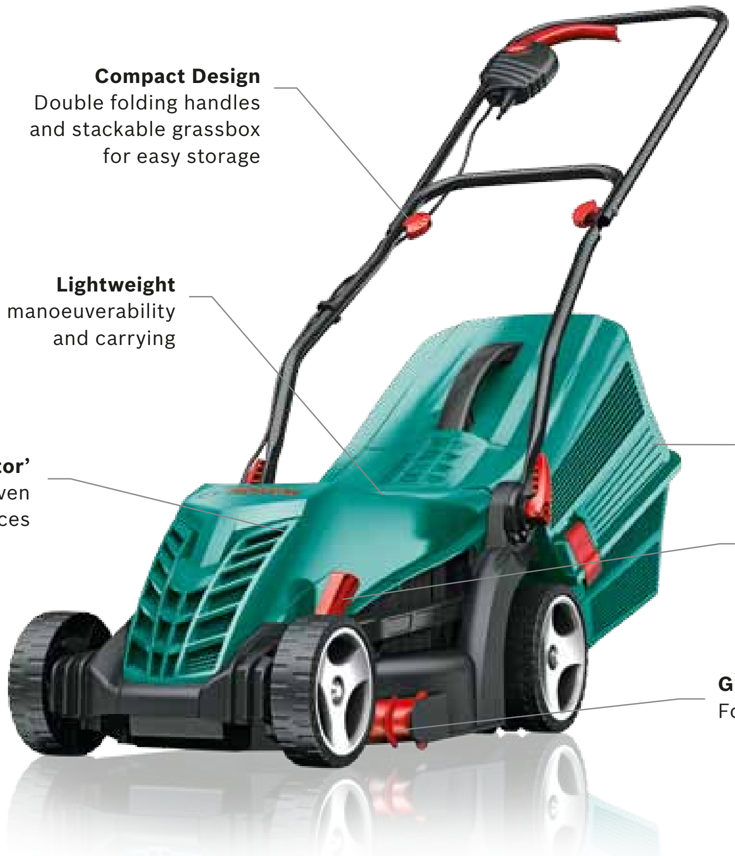
Effective
Mow right up to the edge thanks to the grass combs.

NEW! Rotak 34 R rotary lawnmower.
The clever space saver.

The new Rotak 34 R takes the stress and hassle out of mowing your lawn. Lightweight and compact, it's easy to manoeuvre close to edges and around obstacles. When you're finished simply place the grass box on top of the mower, fold down the handles and stow it away. **Our full range of corded mowers can be found on pages 14–15.**



Compact Design
Double folding handles and stackable grassbox for easy storage

Lightweight
For easy manoeuverability and carrying

'Powerdrive Motor'
Ensures a reliable cut, even under difficult circumstances

40 litre grassbox
For less emptying

Central height-of-cut adjustment
Allows for quick and easy grass cutting height setting

Grass combs
For close to edge cutting

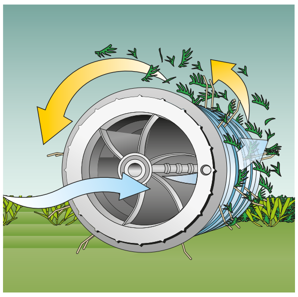
Compact storage
Easy to stow away thanks to storage height of only 55 centimeters.

Cutting edge precision
Cut close to the edge of walls, flower beds and lawns.

Powerdrive Motor
1300 watt 'Powerdrive Motor' ensures a reliable cut, even under difficult conditions and high load.

ALR 900 lawnraker.
Thorough moss removal and aeration.

Your lawn will only flourish if you regularly free it from moss and leaves. You can remove both of these using the Bosch lawnraker by setting its 10 spring steel tines to the corresponding height from –5 mm to gently comb out thatch without damaging the grass to +10 mm to collect leaves. The ‘Jet-Collect System’ creates an airflow to blast everything into the collection box, therefore preventing annoying blockages.



Efficient
The combination of the 900 W ‘Powerdrive Motor’ and the ‘Jet-Collect System’ provides fast and clog-free raking at a working width of 32 cm.

Lawnraker from Bosch
Find out more about the lawnraker, scan the QR code and learn more. For instructions on how to use QR codes turn to page 2.

Compact storage
Double folding handle, stackable collection box

Large 50 L collection box
For less stopping and time to empty it

‘Jet-Collect System’
Innovative drum with spring carbon steel tines and airflow inlets quickly and completely removes thatch and moss

Compact storage
Easy to stow away thanks to storage height of only 40 centimeters.

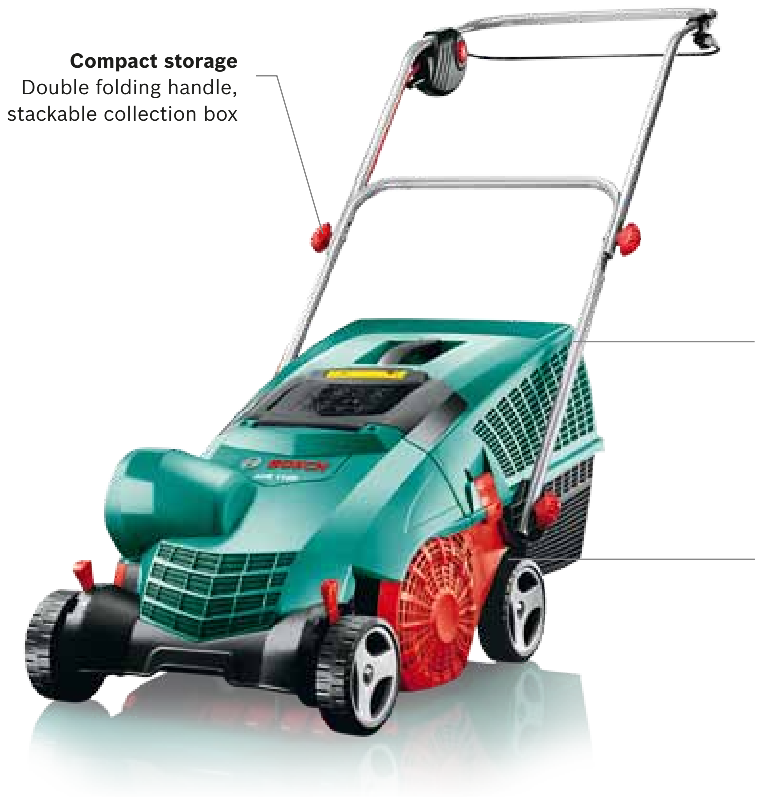
‘Jet-Collect System’
Blows moss, thatch or dead roots completely into the collection box.

Practical
Large 50-litre collection box means less stopping and time to empty it.

AVR 1100 verticutter.
Deep cutting for moss removal and reseeding.

Is your lawn more than two years old? Has your lawn been regularly maintained? Is your lawn infested with moss or thatch? Or is it waterlogged in places? If so, then you need the AVR 1100 verticutter to provide efficient, intensive care for your lawn. The carbon steel blades slit from –10 to +5 mm into the ground, therefore preparing it quickly for reseeding.

Verticutter from Bosch
Find out more about the verticutter, scan the QR code and learn more. For instructions on how to use QR codes turn to page 2.

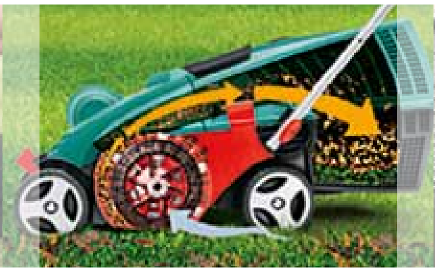


Compact storage
Double folding handle, stackable collection box

Large 50 L collection box
For less stopping and time to empty it

'Jet-Collect System'
Innovative drum with boron steel blades and airflow inlets quickly and completely removes the layer of thatch consisting of plant debris, moss and weeds from the lawn

Efficient
The verticutter frees the turf from thatch, moss, weeds and dead grass. Scarifying the surface opens the soil to enable the exchange of water and gas, stimulating stronger healthy growth of the lawn.



'Jet-Collect System'
Innovative drum with stainless steel blades and airflow inlets quickly and completely removes the layer of thatch consisting of plant debris, moss and weeds from the lawn.

Practical
Large 50-litre collection box means less stopping and time to empty it.

Lawn edging

Cordless grass shears 18
Cordless grass trimmers 19
Corded grass trimmers 20–21
Range overview 22–23

Neat lawn edges.
A made-to-measure tool range.

To put the finishing touches to your lawn, you will need to trim the areas that your lawnmower cannot reach.

If you only need to cut small corners or sections of the lawn, then all you need is a pair of grass shears.

The new **Isio grass shear** can be used with the telescopic handle, for more convenience. The 'Multi-Click System' allows for easy attachment change between the shrub shear or the new sprayer and makes the Isio your essential gardening companion.

The bigger and more complex your garden is, the more you have to work to maintain the lawn edges along paths, walls, fences, corners and around stones, shrubs, trees and flowerbeds. Bosch offers **cordless and corded grass trimmers** to help you with this.

Corded grass trimmers provide high power and cutting diameters of up to 35 cm. They give good results in little time. **The new 18 V lithium-ion cordless trimmers** with the innovative 'Durablade System', delivering excellent cutting performance – lasting up to 12 times longer than previous blades.

Whether cordless or corded, this comprehensive selection of tools ranges from standard models to more sophisticated **grass trimmers** with 90° rotating cutter head, height-adjustable telescopic handle and plant protector.

An overview of the complete range of Bosch products for lawn edging can be found on pages 22–23.

NEW! Isio cordless grass shear.

Compact yet powerful and now even more versatile.

The multifunctional power unit can be used with a range of attachments such as the grass shear, the shrub shear and the new sprayer - and thanks to the innovative ‘Multi-Click System’, changing them could not be simpler.
The 3.6 V lithium-ion battery gives you up to 50 minutes run time on a single charge. The new Isio grass shear can also be used with the new telescopic handle - enabling you to cut without having to bend down. The new lightweight, ergonomic design and the new attachments make the Isio even more versatile and convenient to use. Your essential gardening companion.

Grass shears from Bosch

Shrub and hedge care

Cordless shrub shears 28–29
Cordless hedgecutters 30–31
Corded hedgecutters 32–33
Range overview 34–35

In good shape.
The best tools for cutting.

**Shrubs and hedges are normally very easy to maintain.
Regular cutting is by far the most important way of looking after them.**

It is essential that you choose the right tools to do this.

The new **Isio shrub shear** is a great choice for creative shaping of evergreen and small leafed plants. It can also be used with the telescopic handle, for more convenience. Its 'Multi-Click System' allows you to easily change attachments such as the grass shear, or the new sprayer and makes the Isio your essential gardening companion.

The **ASB shrub and hedge shear** is our strongest ever, while still compact and lightweight for ultimate agility.
You'll find the ASB shrub shear the perfect tool for shaping your shrubs just the way you want them.

Both the **Isio** and **ASB** benefit from the innovative 'Anti-Blocking System' which virtually eliminates stalling.

Cordless hedgecutters offer more freedom of movement and remove the risk of cutting through a cable.

Our cordless lithium-ion hedgecutters with 'Anti-Blocking System' are compact and lightweight for effortless hedgecutting of smaller and younger hedges.

Choose the required tooth opening based on the branch thickness of your hedge. When doing so, remember that a hedge will grow. If in doubt, it is best to choose the next tooth opening up. The height and depth of the hedge determine the optimum blade length.

An overview of the complete range of Bosch corded and cordless shrub and hedge care products can be found on pages 34–35.

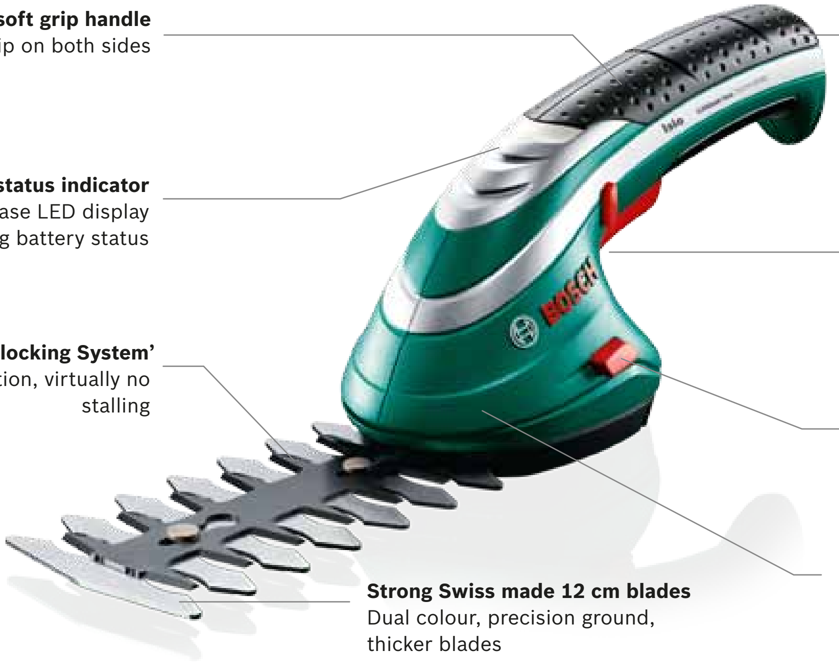
NEW! Isio cordless shrub shear.

Compact yet powerful and now even more versatile.

The multifunctional power unit can be used with a range of attachments such as the grass shear, the shrub shear and the new sprayer – and thanks to the innovative 'Multi-Click System', changing them could not be simpler. The 3.6 V lithium-ion battery gives you up to 50 minutes run time on a single charge. The new Isio shrub shear can also be used with the new telescopic handle – ideal for shaping taller shrubs and small-leafed hedges. The 'Anti-Blocking System' puts an end to annoying jams and stalls- so you can work without interruptions. Your essential gardening companion.

Shrub shears from Bosch
To find out more about the cordless shrub shears, just scan the QR code. For instructions on how to use QR codes turn to page 2.

Powered by Bosch Smart LI-ION+ Technology



Comfortable soft grip handle
Ergonomic grip on both sides

Battery status indicator
Practical 4-phase LED display showing battery status

'Anti-Blocking System'
Powerful action, virtually no stalling

Strong Swiss made 12 cm blades
Dual colour, precision ground, thicker blades

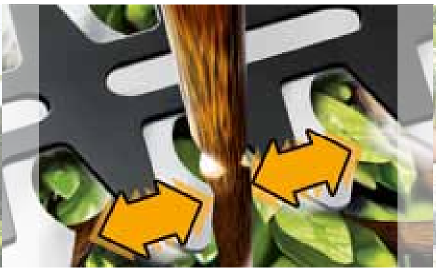
Up to 50 min run time
Integrated 3.6 V lithium-ion battery. No memory-effect, no self-discharge, always ready to use

Outstanding ergonomics
Small, lightweight, compact, weighs only 550 g

'Multi-Click System'
Makes changing attachments fast and simple

Multifunctional for more convenient use
Sprayer and grass shear attachments available

Convenient and versatile
The Isio shrub shear can also be used with the new telescopic handle.

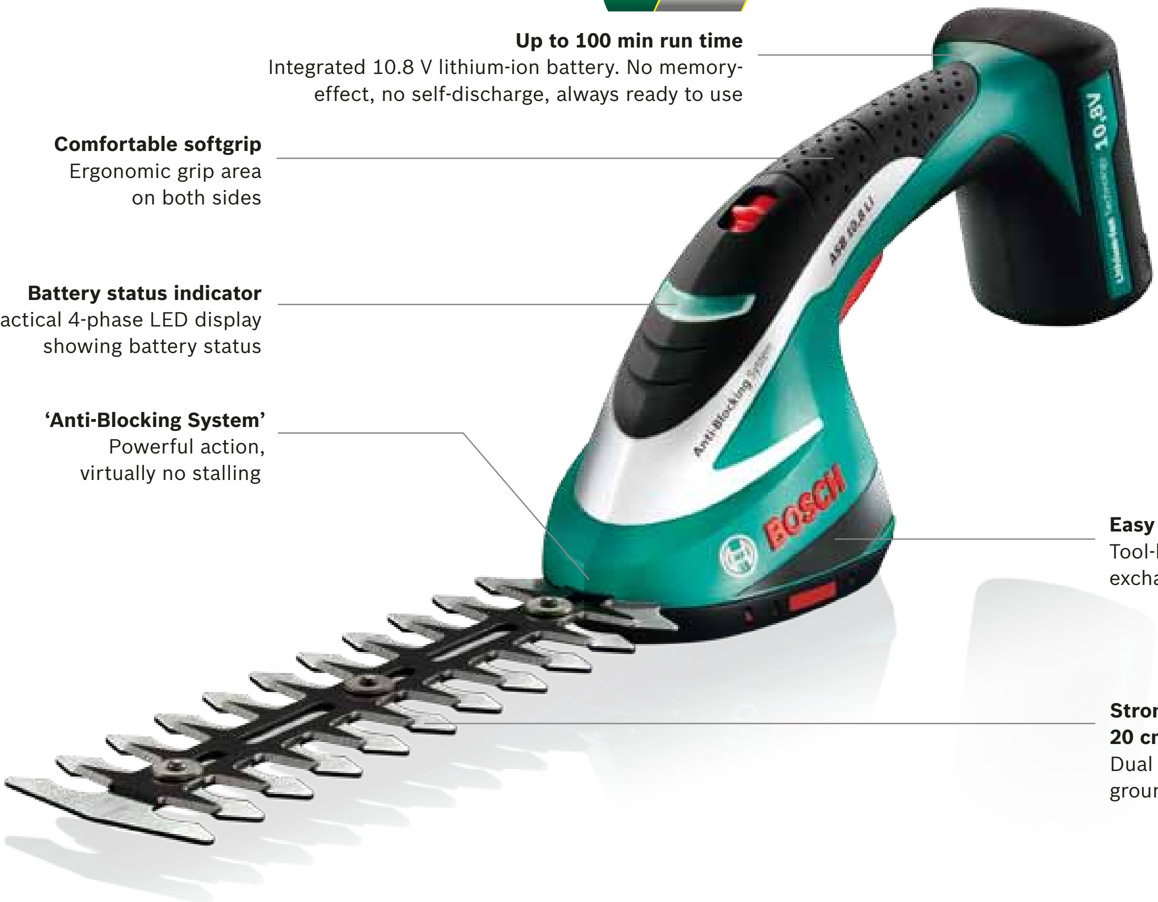


'Anti-Blocking System'
Puts an end to annoying jams and stalls so you can work without interruptions.

Powerfull and lightweight
Shape your shrubs to perfection with minimal hassle.

ASB 10,8 LI cordless shrub shear.
Our strongest ever shrub shear for ultimate agility.

Shrub shearing has never been easier. Our ASB 10,8 LI shrub shear weighs in at just 900 g, giving you complete control to shape your shrubs and young hedges in exactly the way you want them. Its balanced design makes it highly manoeuvrable, and our 'Anti-Blocking System' lets you cut continuously without annoying jams.



Up to 100 min run time
Integrated 10.8 V lithium-ion battery. No memory-effect, no self-discharge, always ready to use

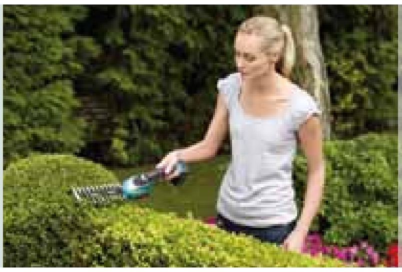
Comfortable softgrip
Ergonomic grip area on both sides

Battery status indicator
Practical 4-phase LED display showing battery status

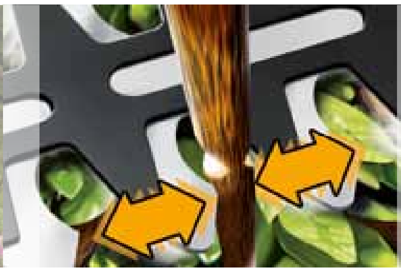
'Anti-Blocking System'
Powerful action, virtually no stalling

Easy exchange
Tool-less blade exchange system

Strong Swiss-made 20 cm blades
Dual colour, precision ground thicker blades



Lightweight
Weight of only 900 g for effortless cutting of bushes and small leafed hedges.



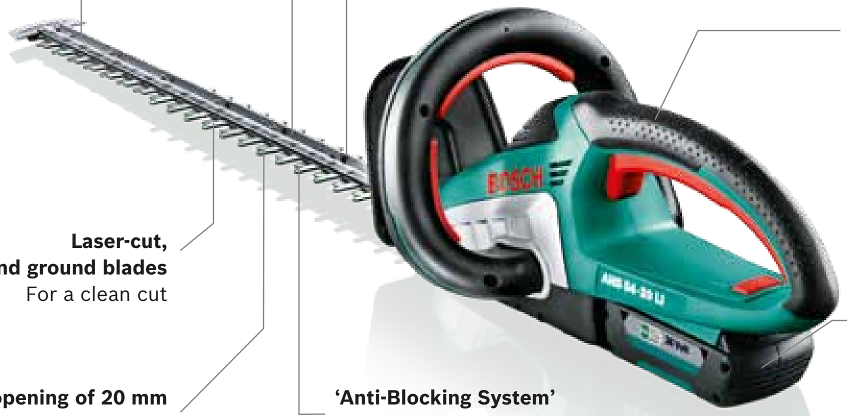
Powerful
Compact and manoeuvrable tool with 'Anti-Blocking System' that reverses the blade action for extra cutting and virtually no stalling.

Always ready to use
Lithium-ion powered tool with integrated battery status indicator delivers up to 100 mins run time.

AHS 54-20 LI cordless hedgecutter.
Cordless mobility and maximum power.

This cordless hedgecutter makes work easier for you. Thanks to its lithium-ion technology, it’s durable and is not dependent on a plug socket. It weighs only 3.5 kg and is ergonomically balanced. This means you can cut in any position without getting tired. Its ‘Anti-Blocking System’ and diamond ground steel blade guarantee a powerful cut.

Headgecutters from Bosch
To find out more about the hedgecutters, just scan the QR code. For instructions on how to use QR codes turn to page 2.



Sawing function
Up to 25 mm cutting diameter

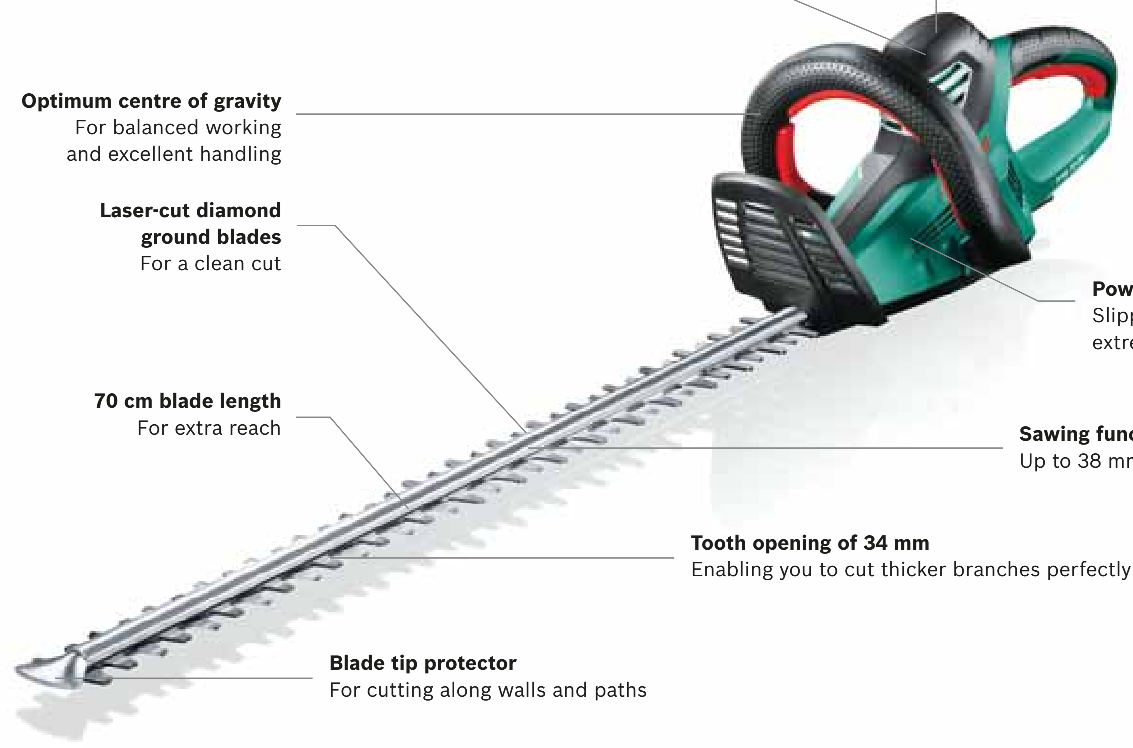
through it.

AHS 70-34 hedgecutter.

Lightweight and extremely powerful for the toughest jobs.

AHS 70-34, 65-34
certified & recommended
AGR
Aktion Gesunder Rücken e.V.
Forum Gesunder Rücken – besser leben
Bundesverband der deutschen Rückenschulen
Campaign for Healthier Backs
Association Forum Healthy Back – Better Living
Federal Association of German Back Schools

The AHS 70-34 is lightweight and extremely powerful. Nimble, yet effective, it lets you storm through big jobs with minimal strain on your back and arms. Its up to 15% lighter than its predecessor, and its ergonomic handle and smaller dimensions allow you to work easily in different positions. **Also available with different blade lengths – see pages 34–35.**



Weight
Up to 15 % lighter than its predecessor

'High-Power' motor
Extremely powerful with 700 W

Optimum centre of gravity
For balanced working and excellent handling

Laser-cut diamond ground blades
For a clean cut

Powerful cutting
Slipping clutch with extremely high torque

70 cm blade length
For extra reach

Sawing function
Up to 38 mm cutting diameter

Tooth opening of 34 mm
Enabling you to cut thicker branches perfectly

Blade tip protector
For cutting along walls and paths

Optimum handling
Well-balanced design makes it up to 15% lighter than predecessors.

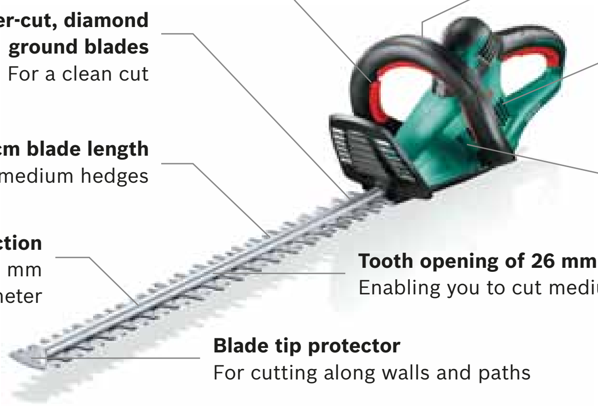
Easy-to-use
See-through hand guard, softgrip handle and multiple switching positions ensure safer and more comfortable cutting.

Maximum performance
700 W motor and a newly-designed blade with sawing function and 34 mm tooth opening.

AHS 60-26 hedgecutter.

Less weight and more power, ideal for mid-sized hedges.

This nifty hedgecutter weighs up to 10% less than previous models – so it takes the strain off your arms and back. With its multi-position handle and compact size, the AHS 60-26 takes the sweat out of handling medium-sized hedges.
Also available with different blade lengths – see pages 34–35.



Weight
Up to 10% lighter than its predecessor

Laser-cut, diamond ground blades
For a clean cut

60 cm blade length
For medium hedges

Sawing function
Up to 32 mm cutting diameter

Ergonomic handle
For convenient working in any position

'High-Power' motor
Extremely powerful with 600 W

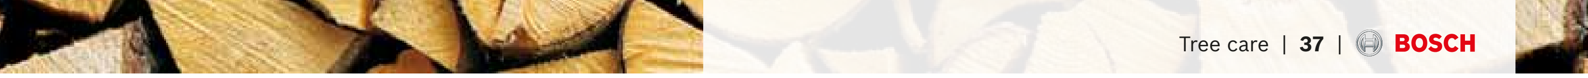
Tree care

Cordless multi-saw 38
Cordless chainsaws 39
Corded chainsaws 40
Shredders 41–43
Range overview 44–45



Neat and tidy.
With Bosch garden tools for tree care.

For you to be able to enjoy a tidy garden, having the right saws and shredders is essential.

The **Keo cordless multi-saw** is immensely versatile and packs a real punch. It can be used to cut anything from livewood and deadwood, through to metal and plasterboard.

For the more demanding cutting jobs, Bosch offers a range of **chainsaws.** The selection of a chainsaw should be based on power, chain speed and frequency of use.

Electric chainsaws have the advantage of being easy to use as they are maintenance-free and also extremely powerful. Our **cordless AKE 30 LI** is one of the most efficient, powerful and easy-to-use cordless chainsaws on the market.

The **AXT Rapid 2200 shredder** is ideal for small gardens mainly consisting of shrubs, foliage plants and smaller branches.

The **AXT 25 D quiet shredder** with cutting drum mechanisms is highly recommended for medium-sized gardens with larger trees, old hedges and a lot of wooden garden material.

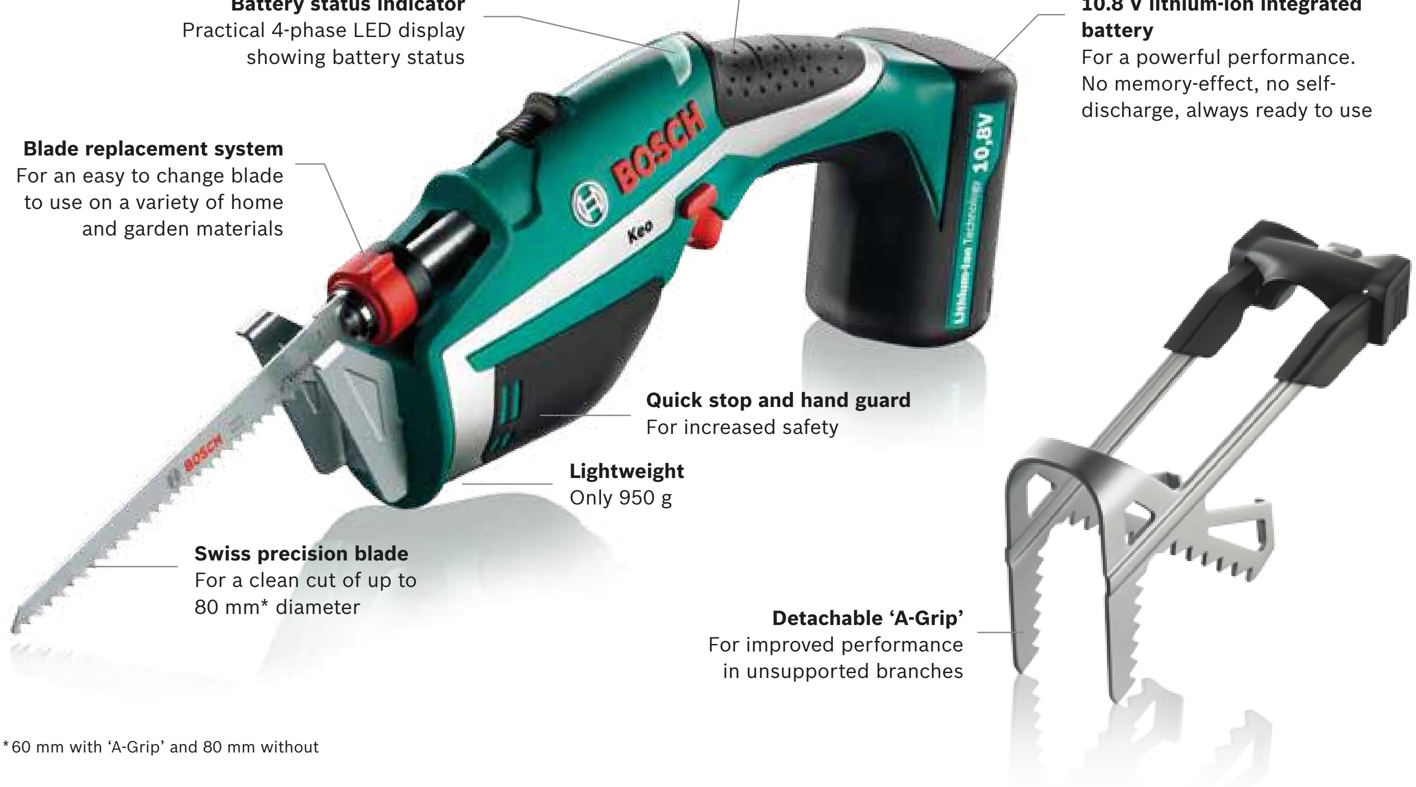
The **AXT 25 TC quiet shredder** with the ‘Turbine-Cut System’ is perfectly suited to large gardens with all types of plant material.

An overview of the complete range of Bosch tree care products can be found on pages 44–45.

Keo cordless multi-saw.
Cuts effort as well as branches.

The Keo cordless multi-saw can be effortlessly operated single-handedly thanks to the innovative ‘A-Grip’ feature, which supports branches so you don’t have to use your second hand. With low vibration, low noise and variable speed trigger, the Keo multi-saw offers optimal user comfort whilst always ensuring a powerful and fast cutting experience, thanks to its precision Swiss blade.

Cordless multi-saw from Bosch
Find out more about the Keo, scan the QR code and learn more. For instructions on how to use QR codes turn to page 2.



Ergonomic handle
Soft grip and ergonomic shape for increased manoeuvrability

Battery status indicator
Practical 4-phase LED display showing battery status

10.8 V lithium-ion integrated battery
For a powerful performance. No memory-effect, no self-discharge, always ready to use

Blade replacement system
For an easy to change blade to use on a variety of home and garden materials

Quick stop and hand guard
For increased safety

Lightweight
Only 950 g

Swiss precision blade
For a clean cut of up to 80 mm* diameter

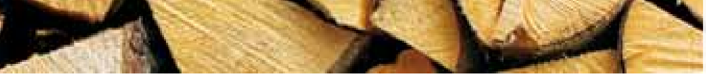
Detachable ‘A-Grip’
For improved performance in unsupported branches

*60 mm with ‘A-Grip’ and 80 mm without

Multifunctional
Five blades available as accessories for multiple DIY uses around the home and garden.

Effortless cutting
Versatile help around house and garden. Cuts branches up to 80 mm with the push of a trigger. Delivers up to 30 cuts of 60 mm diameter or up to 190 cuts of 15 mm diameter per battery charge.

Hassle free
Detachable ‘A-Grip’ that holds the unsupported branches while cutting – no second hand required.



AKE 30 LI cordless chainsaw.

No petrol, no cable, full power.

Choosing the AKE 30 LI will give you one of the most efficient, powerful and easy-to-use cordless chainsaws on the market. There will be no cables, no extension leads and none of the hassle of petrol start up. The AKE 30 LI is always ready to use and will handle any cutting task around your garden.

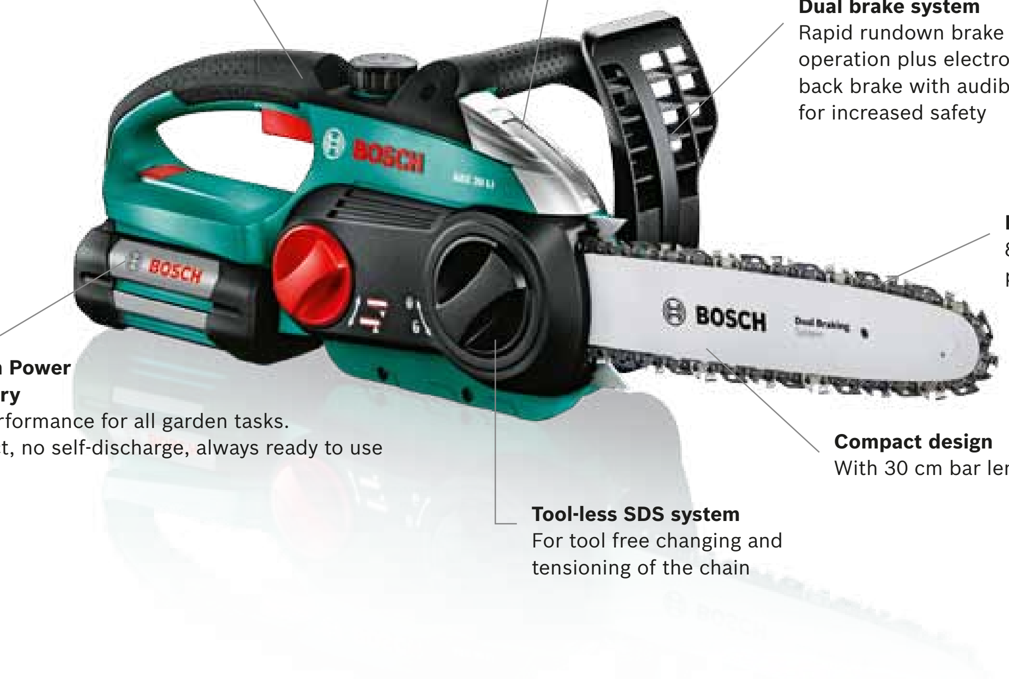
Chainsaws from Bosch
Find out more about the chainsaws, scan the QR code and learn more. For instructions on how to use QR codes turn to page 2.

Environmental label 'Der blaue Engel' awarded for low noise and low emission garden tools. RAL-UZ 129

Oil level indicator and automatic oiling
To avoid running the chainsaw dry

Ergonomic handles
Soft grip and ergonomic shape for increased manoeuvrability

Dual brake system
Rapid rundown brake for normal operation plus electronic kick back brake with audible warning for increased safety

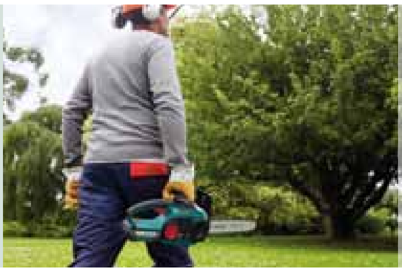


High chain speed
8 m/s for fast and precise cutting

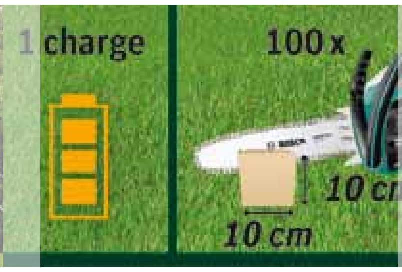
36 V/2.6 Ah High Power lithium-ion battery
Provides high performance for all garden tasks.
No memory-effect, no self-discharge, always ready to use

Compact design
With 30 cm bar length

Tool-less SDS system
For tool free changing and tensioning of the chain



Quick start
No untangling cables, no petrol start up hassle – always ready to use.

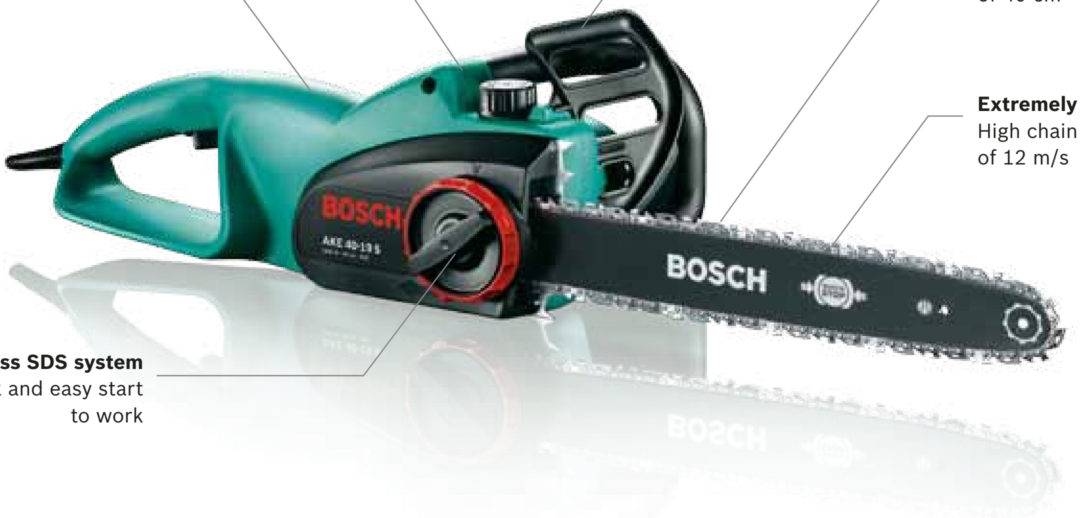


Freedom
Cordless lithium-ion power delivers over 100 cuts in 10 x 10 cm pine wood with one battery charge.

Powerful
Efficient high performance electric motor that copes with any task around your garden.

AKE 40-19 S chainsaw.
Incredibly fast.

The AKE 40-19 S electric chainsaw features simple, tool-free chain assembly and tensioning. It has a kick-back brake that stops the chain quickly and it is perfectly balanced for use in any position. The large steel gripping teeth allow for good leverage, accurate cutting and reduced possibility of kick-back. **Also available with a 35 cm barlength – see page 44.**



Powerful motor
With 1900 W

Optimum balance
For working in any position

Tool-less SDS system
For a quick and easy start to work

Kick-back brake
Operates very quickly for user safety

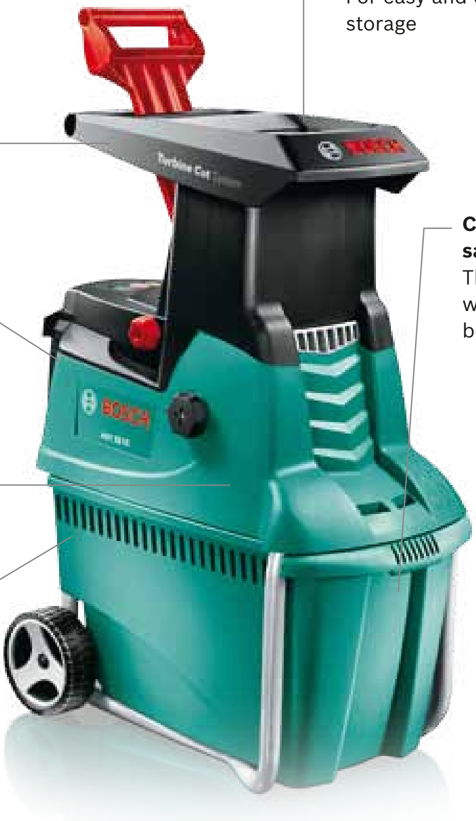
AXT 25 TC quiet shredder.

Versatile, multi-purpose shredder.

Do you want to shred your garden waste without having to separate green material from wood? Bosch has a quiet shredder with ‘Turbine-Cut System’ for all types of wood and green material. You also get your work finished more quickly due to the fast feed hopper and automatic feed for fast material throughput. The removable hopper fits exactly in the collection box to ensure space-saving storage.

Environmental label ‘Der blaue Engel’ awarded for low noise and low emission garden tools. RAL-UZ 129

Shredders from Bosch
To find out more about the shredders, just scan the QR code. For instructions on how to use QR codes turn to page 2.



Removable hopper
For easy and compact storage

Automatic feed and low noise levels
For extremely convenient shredding

Collection box safety function
The tool only works when the collection box is in position

Cutting capacity of up to 45 mm
For powerful shredding

‘Turbine-Cut System’
Innovative cutting system with motor power of 2500 W

Practical collection box
53 L capacity for easier collection of the shredded material

Top performance
Up to 230 kg/h material throughput and up to 45 mm branch diameter cutting capacity.

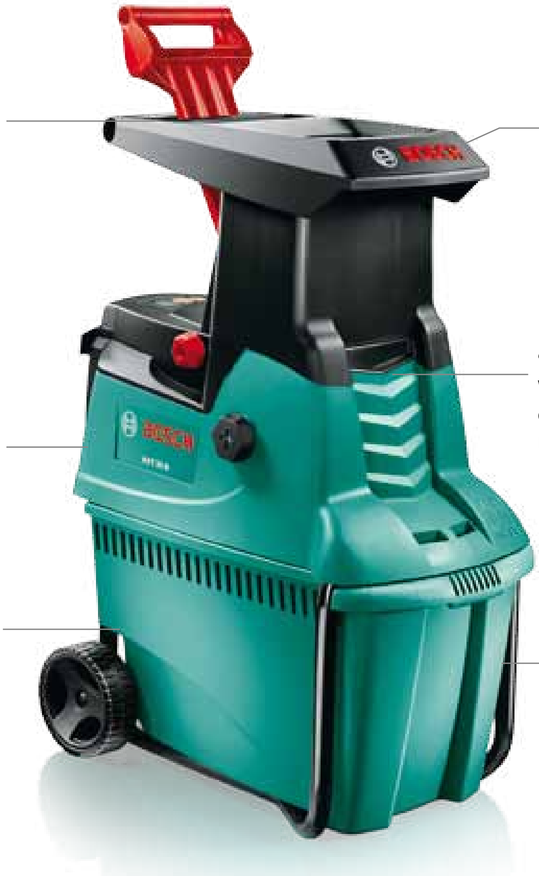
‘Turbine-Cut System’
The ‘Turbine-Cut System’ guarantees extremely fast material throughput from greenery to hard wood whilst avoiding blockages.

Convenient
Removable hopper is stored in the large collection box – only 67 cm in height when stored, ideal for compact storage.

AXT 25 D quiet shredder.
Powerful shredding performance.

The AXT 25 D quiet shredder with a branch cutting capacity of up to 40 mm diameter is ideal for hard wood, old hedges and thorny shrubs. The drum cutting system cuts and crushes all in one go producing high quality biodegradable shredded material.

Environmental label 'Der blaue Engel' awarded for low noise and low emission garden tools. RAL-UZ 129



Automatic feed and low noise levels
For extremely convenient shredding

Removable hopper
For easy and compact storage

'Drum-Cut System'
With optimised drum design and 2500 W motor power

Cutting capacity of up to 40 mm
For powerful shredding

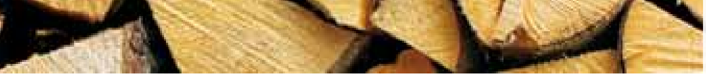
Practical collection box
53 L capacity for easier collection of the shredded material

Collection box safety function
The tool only works when the collection box is in position

Convenient
Removable hopper is stored in the large collection box – only 67 cm in height when stored, ideal for compact storage.

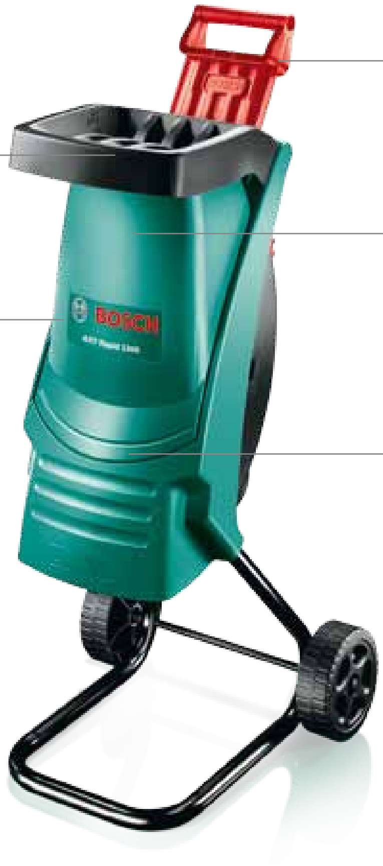
'Drum-Cut System'
With a powerful 2500 W 'High-Power' motor, the drum cutting system delivers an impressive material throughput of up to 175 kg/h.

Enhanced safety
The shredder only works when the collection box is in position for enhanced safety.



AXT Rapid 2200 blade shredder.
Razor sharp – for fast shredder performance.

If you mainly have to shred green, soft material, then you should use the Rapid shredder. It has the impressive Bosch ‘Powerdrive Motor’ for high material throughput, a laser-cut precision blade made of specially hardened steel for high cutting performance, and approximately seven times better cutting power than its competitors. It really does its name justice.



Large capacity hopper
For quick and easy feed

Cutting blade

double sided
cutting blade

Practical plunger
For increased material
throughput

Cutting capacity
of up to 40 mm
For powerful shredding

High-speed Bosch
‘Powerdrive Motor’
With 2200 W and high torque

Convenient
Fast feed hopper and practical plunger for easy filling and fast material throughput.

‘Blade-Cutting System’
The 2200 W Powerdrive motor helps the laser cut, precision blade deliver a material throughput of up to 90 kg/h.

BOSCH
AXT RAPID 2200

Cutting capacity
Up to 40 mm for powerful shredding of green and soft material.

Multi-tool

Corded multi-tool 48–49
Range overview 50–51

AMW Multi-tool.
The all purpose tool for the all purpose lifestyle.

Instead of buying dedicated gardening tools, Bosch AMW Multi-tool system helps you manage the key gardening tasks with one power unit and the required attachments.

Every feature and design element of the Multi-tool system is constructed to deliver outstanding performance, user comfort and convenience:

Power Unit (AMW 10) provides a maximum of 1000 watts to operate the attachments in optimal speed and power. The adjustable auxiliary handle, and three shoulder strap positions are engineered to account for size and height of different users. This enables easy work for extended periods of time.

The intuitive quick attachment change design provides a safe and quick fix to swap around the attachments with ease.

AMW HS (pole hedgecutter attachment) comes with a 43 cm long blade and a 15 mm tooth opening. Equipped with a 180° head adjustment function for easy overhead trimming without using a ladder.

AMW SG (pole pruner attachment) delivers comparable cutting speed of a standard 12 m/s chainsaw. Its overall 2.1 m tool length provides precise overhead cutting.

Not enough? You can add the 70 cm long **AMW TS** (extension pole) to the pole hedgecutter or pole pruner attachment to reach a further height, meaning more possibilities!

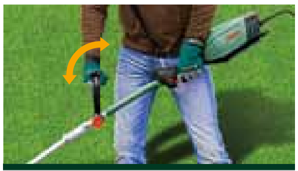
No more fuss with winding and changing the spool line! **AMW RT** (heavy duty trimmer attachment) uses 3.5 mm thick cutting sticks for cutting more grass in tougher conditions without the worry of quick line replacement.

An overview of the complete range of Bosch products for AMW Multi-tool can be found on pages 50–51.

AMW Multi-tool.

Trim. Cut. Prune. The all purpose tool for the all purpose lifestyle.

Complete a large number of gardening tasks with only one tool. With three elaborately designed attachments, the AMW 10 multi-tool can be used as either a heavy-duty trimmer, a pole pruner or a pole hedgecutter. The attachments are fitted to the tube of the power unit in only three steps: loosen the adjusting knob, insert the attachment until it clicks in, and tighten the adjusting knob. The trimmer, pole hedgecutter or pole pruner is then ready to use.



ERGONOMIC

Ergonomic design
For better handling and less strain on your back when working for extended periods of time.

Multi-tool from Bosch

Hook
For easy storage

1000 W motor
Delivers outstanding cutting performance

Ergonomic design
Easy to carry and manoeuvre

Adjustable handle
Angle and position for comfortable use

Shoulder Strap
For comfort

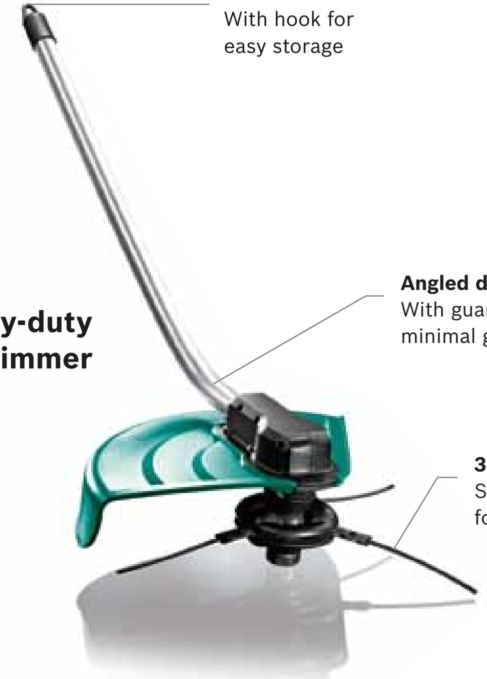
Quick attachment change
No tool needed to switch between applications

Quick attachment change
No tools are needed to switch between applications.

Powerful
1000 W motor delivers outstanding cutting performance.

Versatile
Tackle trimming, tree pruning and hedgecutting with just one tool.

Heavy-duty trimmer

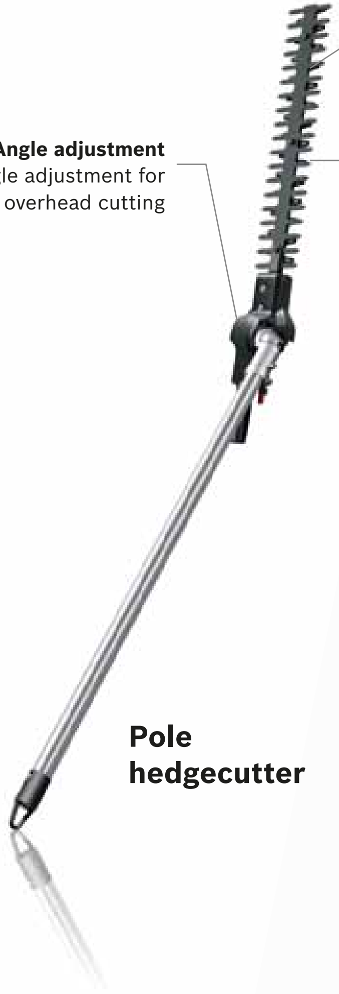


Tube Cover
With hook for easy storage

Angled drive shaft
With guard for a safer cut and minimal grass deflection

3.5 mm thick cutting sticks
State-of-the-art design for heavy duty trimming

Pole hedgecutter

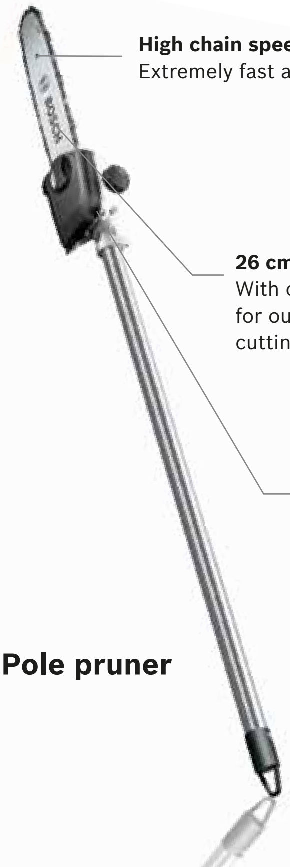


15 mm tooth opening
Cuts even medium-weight branches with ease

Angle adjustment
180° angle adjustment for easy overhead cutting

43 cm blade length
Long enough to deal with most overhead jobs

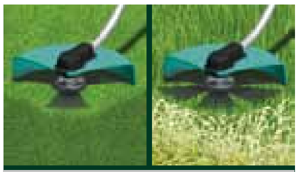
Pole pruner



High chain speed
Extremely fast at 12 m/s

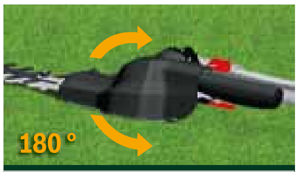
26 cm cutting length
With compact chain design for outstanding overhead cutting

Automatic oiling system
To make sure your pole pruner doesn't run low on oil



EFFICIENT

Heavy-duty trimmer
3.5 mm thick cutting sticks for powerful trimming.



CONVENIENT

Pole hedgecutter
180° blade rotation for adapting blade to any work situation.

HIGH PERFORMANCE

Pole pruner
Delivers comparable cutting speed of a standard 12 m/s chainsaw.

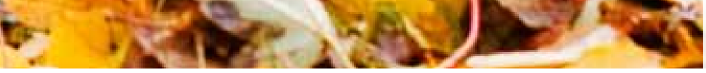
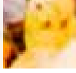
Outdoor clearing

Cordless leaf blower 54
Corded garden vacuum 55
Range overview 55





Tidying made easy.
Keeping your garden neat and tidy.

If you like everything in the garden to be kept clean and tidy, then there is nothing better than Bosch outdoor clearing tools.

Bosch is proud to offer three high-performance products in its outdoor clearing range: the **ALB 18 LI** leaf blower, the **ALS 2500** garden vacuum, and the all-new **ALB 36 LI** garden blower. These three garden clearing tools are ideal for removing leaves and waste from your garden.

Thanks to lithium-ion battery technology, both the ALB 18 LI leaf blower and the ALB 36 LI garden blower operate cordlessly, giving you the freedom to clear and sweep leaves anywhere in the garden. As the battery has no memory effect and doesn't self-discharge, it delivers long-lasting power and maximum run time for totally efficient outdoor clearing.

In addition, these tools do away with all the annoyance of conventional petrol products. No more smelly petrol, noise or vibration. With the ALB 18 LI and 36 LI blowers, you can simply enjoy your gardening work.

The speed control system on the ALB 36 LI blower offers DIY gardeners extra versatility. From stubborn leaves on the patio to more delicate debris around the flowerbed, it can be adjusted to deliver the right blowing power for different types of garden refuse.

The ALS 2500 garden vacuum makes clearing and collecting "green waste" child's play. Equipped with a powerful 2500 W motor, it serves as a blower and garden vacuum in one. Firstly the leaves are gathered together using the blower. This can then be vacuumed with the suction tube, shredded and compressed into the 45-litre, waterproof collection bag.

All of these products feature state-of-the-art Bosch engineering to provide you with the best possible ergonomics. Clear waste without strain thanks to the lightweight design, for more control over your work and enjoyable gardening.

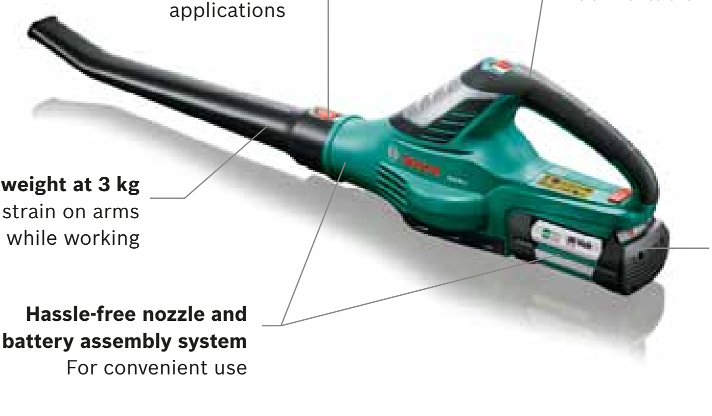
POWER
Bosch
Lithium-Ion
36 V

ALB 36 LI leaf blower.

Tidy up wherever you want.

Packed with 250 km/h of blowing power and an innovative speed control system, our ALB 36 LI garden blower is the ultimate all-rounder. Thanks to its ergonomic design and improved battery life, this 36 V cordless tool delivers the mobility and power you need to get the job done.

Leaf blowers and vacuum cleaners from Bosch
Find out more about the leaf blowers and vacuum cleaners, scan the QR code and learn more. For instructions on how to use QR codes turn to page 2.



Speed Control
For optimal blowing speed and efficiency for different blowing and debris gathering applications

Extended soft grip
Comfortable handling position

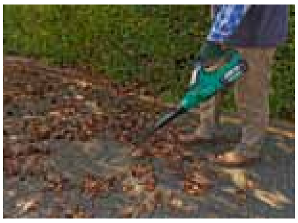
Lightweight at 3 kg
No strain on arms while working

Powered by Bosch Smart LI-ION+ Technology

36 V/2.6 Ah lithium-ion battery
More power with less weight, no self-discharge, no memory effect

Hassle-free nozzle and battery assembly system
For convenient use

Effortless operation
The intuitive ergonomic design and light weight enable comfortable working around the garden.

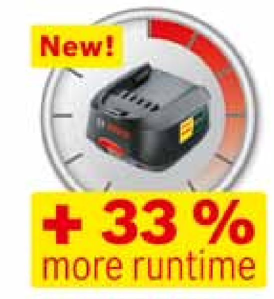


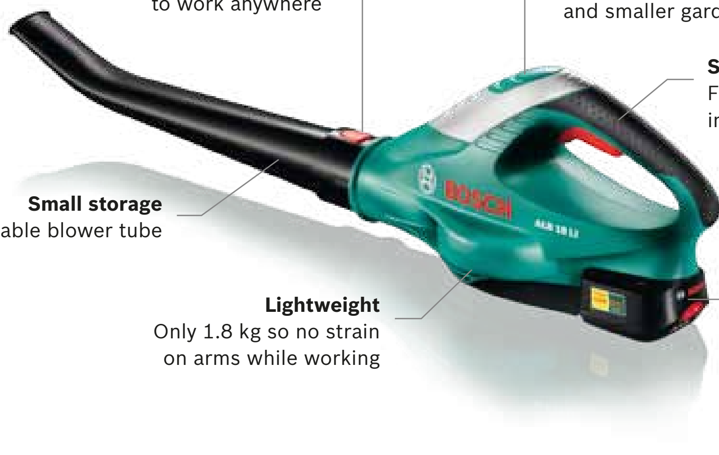
Optimal speed control
for efficient blowing and different debris gathering applications.

ALB 18 LI leaf blower.

Tidy up wherever you want.

Our cordless ALB 18 LI leaf blower is perfect for patios and smaller gardens. It tidies with a 210 km/h concentrated jet of air, sweeping leaves and garden waste into easy-to-pick-up heaps. Part of the 18 V Power4All family, its cordless advantage allows you to work anywhere.





Maximum mobility
Cordless tool allows the freedom to work anywhere

Blowing speed
210 km/h airspeed – full power for patios and smaller gardens

Soft grip
For convenient working in any position

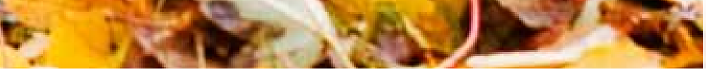
Small storage
Removable blower tube

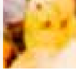
Powered by Bosch Smart LI-ION+ Technology

18 V/2.0 Ah lithium-ion battery
More power with less weight, no self-discharge, no memory effect

Lightweight
Only 1.8 kg so no strain on arms while working

Full power
210 km/h jet of air banishes leaves from your garden and patio.

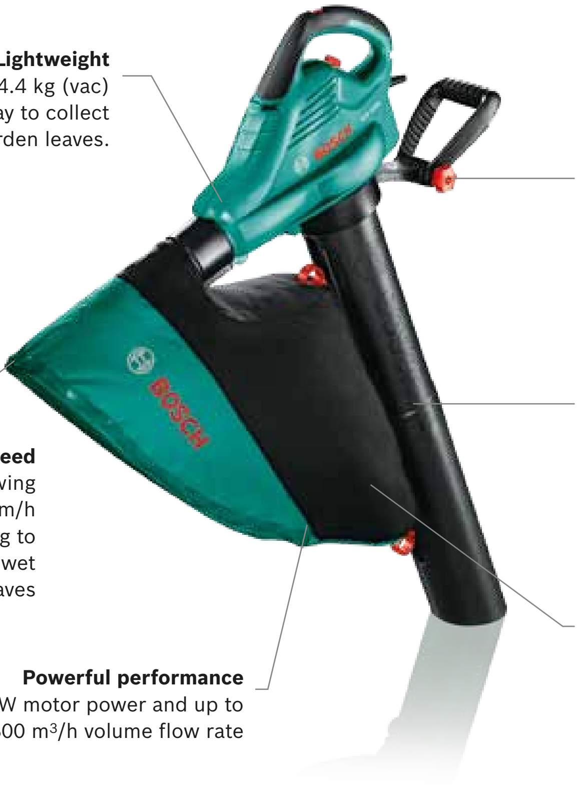




ALS 2500 garden vacuum.

The only problem you'll have is running out of leaves.

Our corded garden vacuum sucks up the most stubborn garden waste, allowing the shredder function to condense the amount of waste deposited for ideal compost material. This becomes the most effortless way to collect garden leaves.



Lightweight
3.2 kg (blow) and 4.4 kg (vac) for an effortless way to collect garden leaves.

Blowing speed
Variable blowing speed up to 300 km/h for light sweeping to removing sticky, wet leaves

Powerful performance
2500 W motor power and up to 800 m³/h volume flow rate

Adjustable handle and padded shoulder strap
For comfortable use without pain in shoulders or arms

Longer working time
Shredding ratio 10:1 – more compact leaves for better composting

Easy to use 45 L collection bag
Second handle and zipper for easy emptying of the bag

Effortless control
Ergonomic handles, and designed specifically for improved balance and comfort.

Longer working
10:1 shredding meaning fewer trips to the compost heap.

BOSCH
AQT 35-12

High pressure washers from Bosch
To find out more about the high pressure washers, just scan the QR code. For instructions on how to use QR codes turn to page 2.

High-Pressure Washer.
The effortless cleaning solution for home and leisure.

Make the neighbours wonder how you do it. With the AQT High-Pressure Washer range, cleaning is minimum effort and maximum satisfaction!

The path to spotless has never been this effortless.

The AQT 33-10. An entry-level solution for basic cleaning tasks. Lightweight and compact, this model is easy to carry and store. Perfect for occasional use.

The AQT 35-12. The ‘click and go’ system for the out of box cleaning experience. A practical model equipped with innovative features and fittings for more flexibility. Easy to setup and manoeuvre for a wider variety of outdoor cleaning tasks.

The AQT 37-13. A high pressure model for all round cleaning performance. Simple push fit hose connections for ‘click and go cleaning’. Robust design with added power for bigger tasks and more challenging dirt and grime.

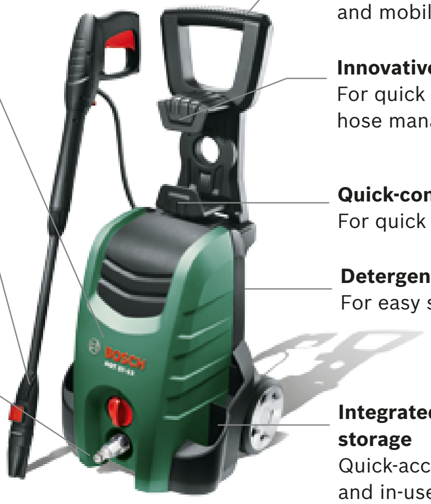
Thanks to a wide range of accessories, the AQT High-Pressure Washers from Bosch are all-in-one solutions to any outdoor cleaning challenge. With the 90° nozzle you can remove dirt from roof gutters or wheel arches without uncomfortable bending or stretching. Just attach the suction nozzle to remove puddles or wet spots on the patio. Clogged pipes or drains? Flush them out with the drain cleaner hose. With the patio cleaner, a clean and nice looking patio is no longer an exhausting task.

Convenience is about removing obstacles and turning tiresome tasks into fun cleaning – a principle that applies to all of our AQT High-Pressure Washers. Convenience through compact design, through user-friendly accessories and through smart functions. For easy setup and storage, efficient energy use, and the fastest, most effective performance possible.

NEW! The AQT 37-13.

The effortless cleaning solution for domestic use.

With the new AQT 37-13, cleaning is minimum effort and maximum satisfaction! A high pressure model for all-round cleaning performance. Robust design with added power for bigger tasks and more challenging dirt and grime.



Auto-stop system
Delivers power only when you need it

Versatile 3-in-1 nozzle
High pressure fan and rotary-jet head with low pressure soap option

Water filter
For easy maintenance and additional pump protection

Fold down handle
For hassle-free storage and mobility

Innovative hose storage
For quick and convenient hose management

Quick-connect SDS fittings
For quick and easy setup

Detergent system
For easy soap application

Integrated accessory storage
Quick-access compartments and in-use lance and gun rest

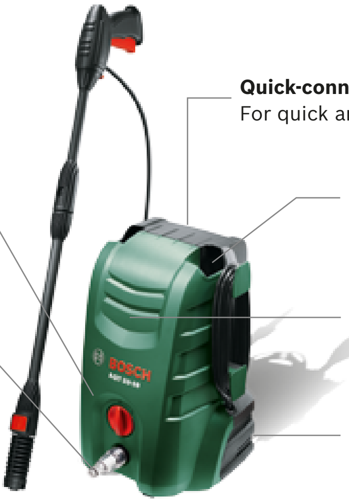
Performance cleaning
All the power you need delivered through an innovative 3-in-1 nozzle.

Effortless cleaning
Comprehensive range of accessories provided for all your cleaning tasks.

NEW! The AQT 33-10.

Convenient and time saving cleaning.

The new AQT 33-10 for tidying up. An entry-level solution for basic cleaning tasks. Lightweight and compact, this model is easy to carry and store. Perfect for occasional use.



Auto-stop system
Delivers power only when you need it.

Water filter
For easy maintenance and additional pump protection.

Quick-connect SDS fittings
For quick and easy setup.

Integrated accessory storage
Compartments for easy access and tidy storage.

Compact design
Ergonomic space-saving design with integral handle.

Detergent system
For easy soap application.

Lightweight and compact design
For easy, space-saving storage

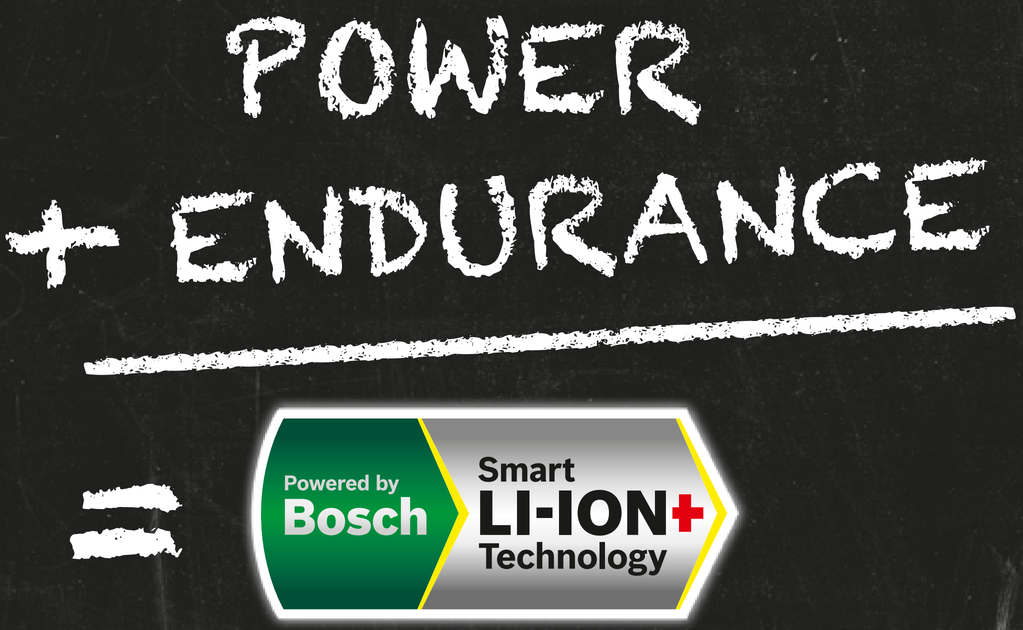
Lithium-ion powered by Bosch

Smart lithium-ion technology **69**
Bosch cordless systems **70**
The 36 Volt concept **71**
The 18 Volt system **72**
The 10.8 Volt system **73**
Overview lithium-ion DIY Power Tools **74–77**



Smart lithium-ion technology
powered by Bosch.

In easier applications, the run time is what counts - for example when shaping and forming hedges and shrubs with many small diameter branches.

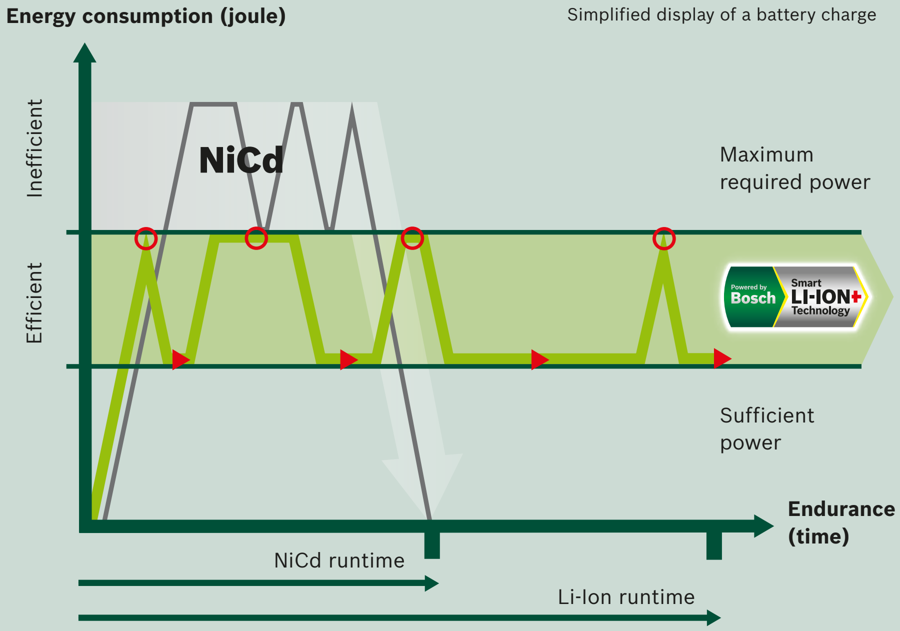
The result: more power and at the same time greater endurance. The latest generation of lithium-ion technology from Bosch - developed with the experience of ten years of Bosch battery research.

Discover the smart lithium-ion technology powered by Bosch now online: **www.bosch-power4all.com**

Maximum power and greater endurance.

Intelligent lithium-ion technology from Bosch.

For more power and greater endurance – according to what is needed. Cordless tools from Bosch always draw the optimum amount of energy thanks to their intelligent electronic control system. For demanding applications like cutting back hedges with big branch diameters – a lot of power is required. In easier applications, the run time is what counts – for example when shaping and forming hedges and shrubs with many small diameter branches.



○ **Maximum power – demanding applications:** Cutting back hedges with big branch diameters, trimming through stubborn growth, drilling in a concrete wall.

▶ **Maximum endurance – easy applications:** Shaping and forming hedges and shrubs with smaller diameter branches, cutting lawn edges, driving many small screws.

🟩 **Smart lithium-ion technology from Bosch**

■ **Conventional NiCd cordless tools**

The advantages of lithium-ion technology:

Maximum power.

When needed, provides high power for demanding applications.

Maximum endurance.

More run time for jobs that take longer but require less power.

Always ready to use.

Lithium-ion batteries are ready to use at any time. No memory effect, no self-discharge.

Long lifetime.

Electronic Cell Protection (ECP) prolong battery life by preventing overheating and overloading.

Compact design.

Cordless tools with lithium-ion technology impress due to their compact design and low weight.

Powered by Bosch
Smart LI-ION+ Technology

Bosch cordless systems.

The system batteries with lithium-ion technology.

Powerful 36 volts, robust 18 volts or compact 10.8 volts. Our cordless lithium-ion systems are the smartest way to stay charged for everyday DIY tasks around the house and in the garden. All you need is a single battery within each voltage category, and one charging unit, and then you can power almost any battery operated tool within that voltage family. Now there's more: you can expand your shed at any time without having to buy new charging equipment – which ultimately saves you money.

Discover the Bosch cordless systems now online:
www.bosch-power4all.com

Powered by Bosch Smart LI-ION+ Technology

36 Volt.

For greater power.

Delivering greater power with zero emissions, the 36 V range provides a real battery alternative to petrol and electric garden tools. With longer run times between charges (compared to NiCd batteries), no extension leads, fumes, petrol or pull cords to worry about, Bosch's 36 V lithium-ion technology really delivers.

18 Volt lithium-ion power tools

PSR 18 LI-2 Cordless Drill/Driver

Power and endurance in your hand.

- Small and compact – the handiest and most comfortable in its class
- Power 2-speed gearbox for optimum power transfer
- With Bosch PowerControl – electronic pre-selectable torque settings thanks to integrated gear change

Uneo Maxx Cordless Rotary Hammer

Maximum versatility, maximum power.

- The powerful 3-in-1 multi-talented tool for hammering, drilling and screwdriving
- Pneumatic hammer mechanism – maximum impact force even when working in hard concrete
- SDS-Quick for easy drill bit changes

PSB 18 LI-2 Cordless Combi Drill

The versatile tool with exceptional power.

- Suitable for drilling even in wood, metal and masonry
- Pre-selectable torque settings plus drill and impact drill setting – optimum power for every application
- Handiest tool in its class thanks to compact design

PST 18 LI Cordless Jigsaw

The compact and cordless way to a precise cut.

- Maximum precision and control thanks to Bosch CutControl
- Bosch Electronic and stroke rate control for an easy sawing start and material-specific working
- 4-stage orbital pendulum action for fast sawing progress and a long saw blade lifetime

Power 4All 18 V

PSM 18 LI Cordless Multi-Sander

Sands in every corner.

- With Bosch Microfilter System – extracts the dust directly into the integrated micro-filter box
- Micro Velcro-type fastening system for fast and convenient replacement of sanding sheets
- Two-piece sanding plate with rotatable delta tip for optimum utilisation of the sanding paper

PSA 18 LI
Cordless Sabre Saw

Makes cutting easy through thick and thin.

- Handy and versatile
- Easy handling and maximum control thanks to the compact and lightweight design
- Turbo function for especially fast cutting through wood

PKS 18 LI Cordless Circular Saw

Compact and powerful.

- Precise and effortless – CutControl enables the easy tracking of markings
- Spindle lock for quick and easy replacement of saw blades
- Effortless sawing thanks to the powerful motor

PML LI Cordless Multifunctional Light

Brilliant light everywhere.

- High lighting power due to three high-quality LEDs (3 x 1 watt)
- Versatile usage thanks to a wide range of accessories
- Optimum mobility

10.8 Volt lithium-ion power tools

Cordless Drill/Driver PSR 10,8 LI-2

Compact power. Which sits comfortably in your hand.

- Small, lightweight, compact – the handiest in its class
- Powerful – with 2-speed gearbox for optimum power transmission
- Pre-selectable torque settings plus drill setting – optimum power for every application

Cordless Rotary Hammer Uneo

Compact power. For hammering, drilling and screwdriving.

- The powerful 3-in-1 multi-talented tool – with the powerful pneumatic Bosch hammer mechanism
- 2-speed gearbox for optimum power transmission
- Comfortable to use due to especially handy size and low weight

Cordless Combi Drill PSB 10,8 LI-2

Compact power. For impact drilling, drilling and screwdriving.

- Most handy tool in its class thanks to compact design
- Weight of only 1 kg for optimum handling
- Pre-selectable torque settings plus drill and impact drill setting – optimum power for every application

Cordless Multisaw PST 10,8 LI

Compact power. For precisely cutting to size and easily sawing off.

- The handy multisaw for short cuts in many materials
- Small, lightweight and compact for controlled sawing – even in tight spaces
- One-hand SDS system – the sawing direction can be easily changed to enable use as a jigsaw and a sabre saw

Power 4All 10,8 V

Cordless Multi-Sander PSM 10,8 LI

Compact power. For more material removal on demand.

- Compact and handy multi-sander
- PowerAutomatic - this all-purpose tool automatically increases its material removal rate when pressure is applied
- Sanding and polishing even in hard-to-reach areas and on small surfaces

Cordless Multifunction Tool PMF 10,8 LI

Compact power. Unbelievably versatile.

- The all-rounder for sawing, cutting, routing, sanding and scraping
- Excellent ergonomics – handy, lightweight, and comfortable handling
- Continuously variable speed preselection with Eco Electronic for precise work and longer battery runtime

Cordless Light PLI 10,8 LI

Compact power. Brings light into the darkness.

- Bright lighting power over a wide area thanks to powerful, energy-saving 1-Watt-Power-LED
- Excellent ergonomics – with softgrip for optimum handling
- Compact design

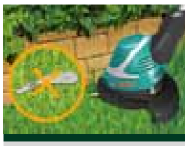
Always one step ahead with Bosch.
Leading technology that helps with everyday gardening work.

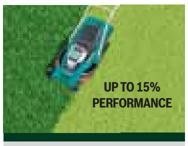
Bosch is always developing new products that are tailored to better meet the needs of gardeners. We make everyday gardening tasks easier and more convenient.

This is just a small selection of our leading technologies. If you'd like to read about more, please visit **www.bosch-garden.com**.



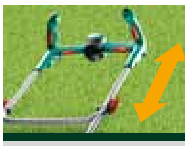
DURABLADE

'Durablade System'
The innovative cutting system Durablade lasts up to 12 times longer than previous blades in all cutting conditions. For uninterrupted use and perfect results.



EFFICIENT ENERGY MANAGEMENT

'Efficient Energy Management'
This increases the run time of the lithium-ion batteries in the Rotak LI by up to 15 % than its predecessor depending on the mowing conditions. The intelligent cutting electronics deliver exactly the required amount of energy to suit the length and density of the grass, and keep the blade rotation speed constant. And when the motor is switched off, the energy recovery system converts the energy generated by the blade run-down motion into electrical energy, which is fed back into the mower's battery.

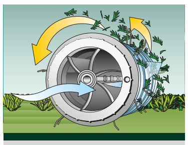


ERGOFLEX SYSTEM

'Ergoflex System'
The Rotak mowers benefit from the 'Ergoflex System', offering ergonomically designed and adjustable handles to improve body posture and reduce muscle strain whilst mowing the lawn.

certified & recommended
AGR
Forum Gesunder Rücken – besser leben
Bundesverband der deutschen Rückenschulen

AGR Quality Approved
The 'Ergoflex System' is approved by the renowned German institution AGR which promotes research into the prevention of back problems.

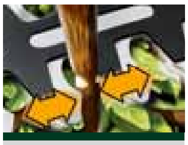


JET-COLLECT SYSTEM

'Jet-Collect System'
The innovative drum with stainless steel blades or spring steel tines and airflow inlets completely removes thatch, moss and weeds. The shredded waste is pressed into the collection box by a powerful airflow that prevents clogging.

POWERDRIVE MOTOR

'Powerdrive Motor'
The innovative reduction gear unit converts the high speed of the motor into enormous power. If it is slowed down by resistance, the torque automatically increases and the motor continues to work powerfully, even under difficult conditions and high load.



ANTI-BLOCKING SYSTEM

Electronic 'Anti-Blocking System'
If a thick branch cannot be cut through immediately, the innovative micro-electronics detect this and instantly adjust the running direction of the blades to continue cutting powerfully through wood where other tools would stall.

CUTS UP TO THE EDGE

Innovative Grass Combs
Wider than the front wheels of the lawnmower, the innovative grass combs enable cutting of grass growing close to the edge due to their special design.

SAWING FUNCTION

Sawing Function
Sawing function at the tip of the blade enables cutting of bigger branches that are wider than the tooth spacing.

TURBINE-CUT SYSTEM

Effective 'Turbine-Cut System'
This newly developed turbine cutting mechanism makes it possible to shred greenery and hard wood together. 8 rotating blades in conjunction with the hopper design enable optimum automatic feed and extremely fast material throughput of up to 230 kg/h. This combination ensures efficient work with virtually no stalling, regardless of the garden material processed.

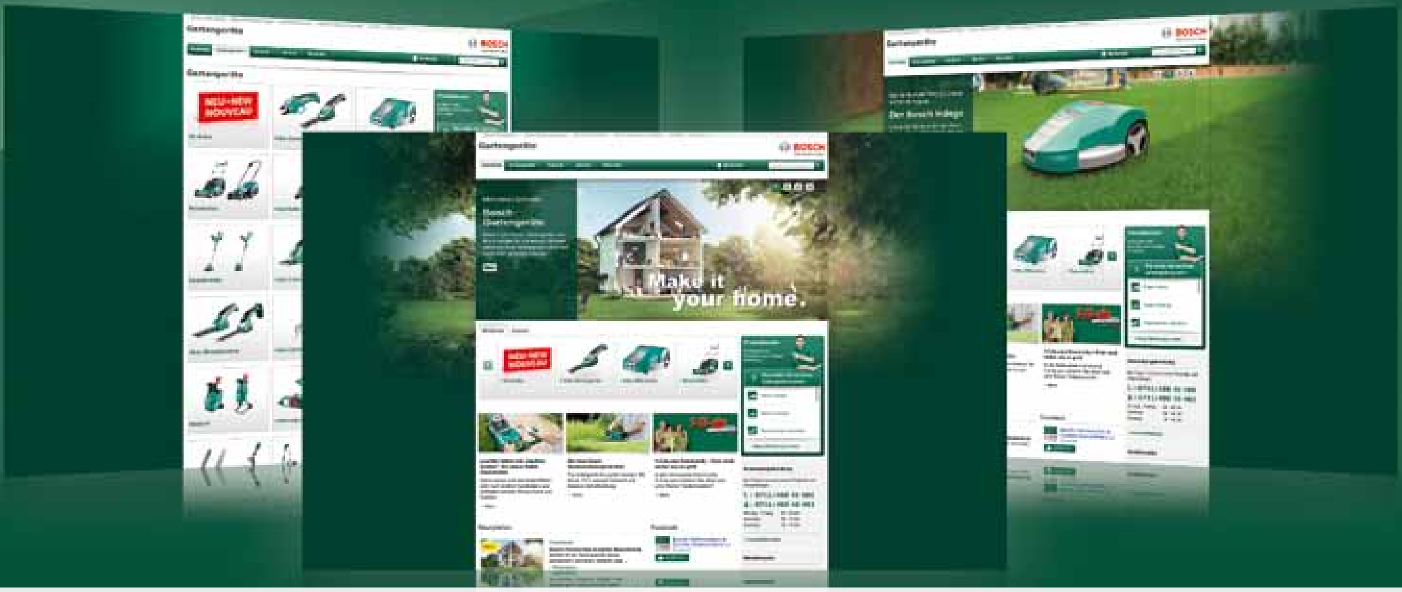
You can also visit Bosch on the Internet
whenever you want to know more.

Are you looking for more tips and tricks on how to use garden tools? Are you not entirely sure which garden product exactly you need? Or do you want to find special accessories for your garden tools? You will find answers to all your questions on our website. Welcome to the gardening division of Bosch. You can find us 24 hours a day at: **www.bosch-garden.com.**

Here you will find not only a gardening advisor with basic knowledge about garden care, but also the latest products and information about how to use them. From lawnmowers through to the practical Isio, from easy to challenging – you are bound to find something to inspire you! Our aim is to ensure that you enjoy the gardening season from start to end. There are also many other things to discover. So why not pay us a visit? The garden portal is always open for you.

If you are looking for information and study aids regarding the technology of Bosch garden tools and power tools, visit **www.powertool-portal.com.**

Visit our website at
www.bosch-garden.com



Make it your home. Bosch garden tools help bring your garden to life by being at the forefront of technology. Whether mowing the lawn or cutting hedges – the innovative garden tools from Bosch make gardening effortless. Spend less time working and more time enjoying your outdoor living area.

BOSCH
Invented for life

www.bosch-garden.com

Bosch Garden Tools.
100% Quality, 100% Service.

Tested and guaranteed
Extensive, continuous endurance-testing and production line sampling ensure that only the best quality products leave the Bosch factory. Our comprehensive 2 year guarantees on all Bosch products are proof of our confidence in our quality control procedures. More detailed information can be found in the warranty declaration at **www.bosch-garden.com**.
